SA Health Recruitment Team

Central Adelaide Local Health Network

RE: Job no: 887055 - Emergency Department– Junior Doctors and Registrars

Dear Recruitment Team,

I would be honoured to work and learn at the **CALHN**. As an Australian citizen who has passed the AMC Part 1 (MCQ) and OET English exams, I am eligible for Limited Registration with AHPRA and remain compliant with AHPRA's recency of practice standards. In addition, I have the AHA's Advanced Cardiovascular Life Support (ACLS) certificate and currently work in Intensive Care and Emergency Medicine.

I am eager to learn and adapt to the Australian healthcare system and contribute my skills and experience to your organisation and team. My expertise spans emergency medicine and intensive care, shaped by challenging and diverse environments over 15 years of medical experience in Brazil.

Key competencies and accomplishments include:

- **Emergency and ICU Proficiency:** Managed critical patients at the height of the COVID-19 pandemic in the second most-affected country in the world, performing high-risk procedures such as intubations while fostering collaboration among multidisciplinary teams and communicating effectively and empathetically with staff, patients and their families.
- **Advanced Surgical Training:** Completed a cardiovascular surgery residency under [Professor Domingo M. Braile](#), acquiring mastery in procedures like airway management, central vein line placement, and pacemaker implantation.
- **Adaptability in Diverse Environments:** Worked across regional hospitals and Latin America's largest oncological hospital (ICESP), navigating complex cases and rapidly evolving healthcare demands.

As someone passionate about providing exceptional care in a dynamic, fast-paced environment, I am genuinely excited by the prospect of working at the **CALHN**, where I can share my current expertise while getting feedback and learning from experienced consultants in state-of-the-art emergency departments in Australia.

On a personal note, I am very keen to work in Australia and be reunited with my family, including my husband and two sons. The **CALHN** seems to be a perfect fit. As an experienced IMG who has performed all the role's key responsibilities, from inpatient care to mentoring medical students, I look forward to sharing and learning more at the Royal Adelaide and Queen Elizabeth Hospitals.

Together, let's shape the future of health through world-class care and world-class research.

Looking forward to hearing from you,

Deva Subasic de Azevedo
