

Deva Subasic de Azevedo

Melbourne, +61 416 830 828, deva.subasic.de.azevedo@gmail.com

Australian Citizen, AHPRA Registration MED0004001841

Compassionate, high-energy, resilient and experienced physician dedicated to a lifelong mission for learning and patient well-being.

Extensive international background in Intensive Care and Emergency Medicine, advanced surgical training, and completing supervised practice at Monash Health (ED and Renal Units).

Seeking an HMO position to leverage diverse critical care skills and further develop within the Australian healthcare system. Possessing ATLS, PALS, and ACLS certifications, with a keen interest in undertaking the Emergency Medicine Certificate (EMC).

EXPERIENCE IN AUSTRALIA

Hospital Medical Officer

04/2025 to 06/2025

Monash Health

Supervised Practice

Training program, focused on the Australian environment and professional culture.

- Adapted to Australian healthcare practices, communication protocols, and the National Health System during supervised rotations in ED and Renal departments.
- Utilised Cerner EMR for patient documentation, orders, and result review.
- Assessed, managed, and documented multiple patient presentations in the Emergency Department.
- Actively participated in multidisciplinary team meetings, ward rounds, and clinical handovers.

EXPERIENCE IN INTENSIVE CARE

Senior ICU Physician

06/2024 to 03/2025

General Hospital Pedreira, São Paulo, Brazil

Neuro Intensive Care

Major secondary referral hospital for general surgery, paediatric surgery, vascular surgery, orthopaedics, otolaryngology, gynaecology, obstetrics, and neonatology, offering a 24-hour Emergency Room, 7 operating rooms, and 289 beds: adult and paediatric wards, and maternity, adult, paediatric, and neonatal ICUs.

Full-time work in the neuro-intensive specialised ICU, providing immediate care after neurosurgery or referred by the ED with complex clinical conditions (infectious, cardiovascular, neurological, etc):

- Admitted, monitored, managed and discussed tailored treatments with the ICU team.
- Performed invasive procedures on ICU patients when necessary.
- Communicated with patients' families on treatment plans, prognosis and updates.
- Discharged patients to medical wards.

Senior ICU Physician

04/2021 to 12/2021

Clinical Hospital Caieiras, São Paulo - Brazil

Private General ICU

Secondary private hospital with adult, neonatal and paediatric ICUs.

- Shift time work, 24 hours per week, attending to patients with post-operative complications and complex clinical conditions (infectious, cardio-vascular, neurological, etc) referred by the ED.

Senior ICU Physician

04/2020 to 06/2021

General Hospital Carapicuíba, São Paulo - Brazil

General ICU adapted for COVID patients

Regional secondary hospital ICU, adapted and dedicated to high-volume COVID-19 patient care during the pandemic surge.

- Provided critical care to a high volume of COVID-19 patients, managing severe acute respiratory insufficiency and other life-threatening complications related to SARS-CoV-2.
- Exercised clinical leadership in a high-stress, dynamic environment, guiding and mentoring a multidisciplinary team of physicians and healthcare professionals, including those redeployed from other specialties to support pandemic response efforts.
- Ensured adherence to evolving COVID-19 treatment protocols and best practices in intensive care.

Senior ICU Physician

07/2021 to 12/2021

ICESP: Institute of Cancer São Paulo - Brazil

ICU specialised in Oncology & Hematology

Largest tertiary and research hospital in Latin America for oncological and hematological diseases. Research in this hospital: [ICESP: a research hub within a total cancer care centre](#).

- Worked with adult patients of all ages from various countries in Latin America, including patients with indigenous background.
- Collaborated closely with multiple medical specialties in interdisciplinary teams.
