

POSITION DESCRIPTION

Resident Medical Officer

South Eastern Sydney
Local Health District

Our CORE values: Collaboration Openness Respect Empowerment

Our Vision: Exceptional care, healthier lives.

Our Purpose: To enable our community to be healthy and well; and to provide the best possible compassionate care when people need it.

Organisation	NSW Health
Local Health District / Agency	South Eastern Sydney Local Health District
Position Classification	JMO Resident Medical Officer
State Award	Public Hospital Medical Officers (State) Award
Category	Medical Officers General
Vaccination Category	A+
Website	www.seslhd.health.nsw.gov.au/

PRIMARY PURPOSE

To provide effective medical services to patients under supervision in a complex clinical environment.

Responsibilities include:

- Coordinating the admission, management and discharge planning of patients seen in or admitted to his / her Unit within the Local Health District, and ensuring that the admission and plans are documented in the medical record.
- Communicating with the patient and their family regarding the nature of their condition and its treatment
- Communicating and coordinating care with the team, arranging consultation with other staff when appropriate then arranging/planning discharge where applicable and liaising with local medical officers and other community based care modalities
- All decisions concerning the patient(s) should be in consultation with their immediate supervisor

RESPIRATOR USE

NSW Health workers may be required to use a respirator, as part of their appointment with NSW Health. Where a respirator is required for use, workers will be instructed in their safe use; including donning, doffing and fit checking. Staff may be required to complete fit testing to selected respirator/s to assess their facial fit/seal.

At all times when a health worker is required to use a respirator, the health worker must not have any facial hair present. Processes are in place to support workers that need to keep facial hair due to religious observance requirements and/ or health conditions.

ESSENTIAL CRITERIA

- MBBS or equivalent, currently registered with the Medical Board of Australia in an appropriate registration

POSITION DESCRIPTION

Resident Medical Officer

South Eastern Sydney
Local Health District

category

- Completion of Internship at the end of the current clinical year
- This position is subject to an appropriate supervision level which can be supported by the health agency. If the incumbent's registration conditions include supervision requirements, the level of supervision must be able to be supported by the health agency for this role.
- Valid Working with Children Check
- Cleared National Police Check
- Aged Care Check for Australian Government funded positions
- To be employed by NSW Health you are required to provide evidence of vaccination to comply with the NSW Health Occupational Assessment, Screening & Vaccination against Specified Infectious Diseases Policy, this includes any amendments made from time to time.

KEY ACCOUNTABILITIES

- Assist with the management of patients in order to provide high quality, safe, patient-centred care. This includes coordinating admissions, assisting with patient assessments, implementing treatment plans, and organizing referrals, consultations, and diagnostic investigations.
- Perform procedures under instruction and supervision, to assist with patient care and contribute to learning.
- Assist with discharging patients as directed, following all relevant protocols, to ensure effective follow up and continuity of care of patients after discharge.
- Communicate patient-relevant information in a timely and clear manner to patients and their families/carers and all staff involved in the patient's care, to facilitate shared decision-making, timely information transfer, and hence ensuring quality patient care. This includes escalating issues when required, and respecting confidentiality and privacy.
- Prepare and oversee accurate documentation in relation to patient care, maintaining confidentiality and privacy, to ensure timely and efficient communication of patient information, and to ensure patient records are effective and accurate for current and future use.
- Teach other clinical staff, to ensure an optimal learning environment, promote growth and development of others. Teaching may include assisting with formal education sessions, providing learning experiences on the job, and giving constructive feedback and informal instruction.
- Supervise other clinical staff, to enable them to develop the competence and knowledge required for responsible practice, to ensure quality patient care and treatment, promote team building and a supportive environment, enhance the performance of those being supervised, and monitor their welfare.
- Contribute to research projects to contribute to scholarly knowledge that leads to better patient outcomes and to develop skills and understanding of quality research.
- Participate in quality assurance activities to ensure that appropriate standards are maintained, gaps in meeting safety and quality standards are identified and raised, and to contribute to the continual improvement of self, colleagues, the department and the service provided by the hospital.
- Actively monitor and manage own safety and wellbeing, seeking assistance when needed.
- Create a personal training or development plan, participate in available educational experiences, and actively seek to learn and obtain feedback in order to maintain lifelong learning and continuing professional development, to understand your own skills, knowledge and capability; and therefore to experience professional growth, exercise judgement and know when to seek assistance.

KEY CHALLENGES

POSITION DESCRIPTION

Resident Medical Officer

South Eastern Sydney
Local Health District

- Working in a complex environment where there are competing priorities and strict deadlines & developing strong working relationships with a multidisciplinary workforce.
- Ensuring that a comprehensive patient history is completed using available sources including the patient as well as other relevant sources (e.g. medical record, family, nursing home, general practitioner, ambulance transfers sheet etc.); Designing then communicating a discharge plan containing an accurate history of their admission and a clearly identified and attainable management plan.
