

POSITION DESCRIPTION

Resident Medical Officer

Northern Sydney
Local Health District

Organisation	NSW Health
Local Health District / Agency	Northern Sydney Local Health District
Position Classification	JMO Resident Medical Officer
State Award	Public Hospital Medical Officers (State) Award
Category	Medical Officers General
Vaccination Category	Category A
Website	www.nslhd.health.nsw.gov.au/

PRIMARY PURPOSE

The RMO Medicine position is suitable for applicants wishing to obtain further medical experience in preparation for a career in General Medicine or General Practice. Northern Beaches Hospital has a strong commitment to vocational training and career support.

This position offers an opportunity for further General Medicine training and experience in a contemporary setting supported by the latest equipment at a brand new state of the art Level 5 facility.

The RMO clinical year consists of clinical rotations in Medicine and Relief. Medicine allocations will be based on the requirements of the Division of Medicine, but a preference allocation system will be employed with opportunities for terms in Neurology, Haematology/Oncology, Gastroenterology, Medical Assessment Unit and Relief.

There is an expectation that this position will contribute to the after-hours rosters. During relief term it is expected to provide leave relief and provision of evening or night cover or both in the Division of Medicine as per service needs.

The primary role of the RMO is to provide medical care in conjunction with the various specialists and admitting medical officers for patients in Medicine and other areas within the hospital to secure optimum health outcomes. The RMO will be supervised by senior medical staff to ensure their responsibilities are commensurate with their clinical experience. The Head of Adult Medicine or their delegate will conduct the mid-term and end-of-term assessments and provide feedback where appropriate.

RESPIRATOR USE

NSW Health workers may be required to use a respirator, as part of their appointment with NSW Health. Where a respirator is required for use, workers will be instructed in their safe use; including donning, doffing and fit checking. Staff may be required to complete fit testing to selected respirator/s to assess their facial fit/seal.

At all times when a health worker is required to use a respirator, the health worker must not have any facial hair present. Processes are in place to support workers that need to keep facial hair due to religious observance requirements and/ or health conditions.

POSITION DESCRIPTION

Resident Medical Officer

ESSENTIAL CRITERIA

MBBS or equivalent, currently registered or eligible for registration with the Medical Board of Australia in an appropriate registration category

A minimum of 1 (one) full year of postgraduate experience within the Australian Healthcare system. MBBS or equivalent. Currently registered or eligible for registration with the Medical Board of Australia.

Demonstrated progress towards career goals in Medicine or General Practice

Demonstrated clinical competency and an ability to work independently within a supervised complex clinical environment utilising excellent clinical skills, judgment and expertise.

Demonstrated excellent written and verbal communication skills, time management and problem solving skills in the clinical setting as part of a multidisciplinary team.

Demonstrated commitment to quality improvement, patient safety and risk management and evidence of sound working knowledge of legal and ethical obligations governing medical practice.

A professional attitude and flexibility in work role with a preparedness and ability to participate in after-hours overtime and on-call rosters.

To be employed by NSW Health you are required to provide evidence of vaccination to comply with the NSW Health Occupational Assessment, Screening & Vaccination against Specified Infectious Diseases Policy, this includes any amendments made from time to time.

KEY ACCOUNTABILITIES

1. Assist with the management of patients in order to provide high quality, safe, patient-centred care. This includes coordinating admissions, assisting with patient assessments, implementing treatment plans, and organizing referrals, consultations, and diagnostic investigations.
2. Perform procedures under instruction and supervision, to assist with patient care and contribute to learning.
3. Assist with discharging patients as directed, following all relevant protocols, to ensure effective follow up and continuity of care of patients after discharge.
4. Co-ordinating the admission, management and discharge planning of patients seen in or admitted within the Area Health Service, Service, and ensuring that the admission and plans are documented in the medical record.
5. Communicate patient-relevant information in a timely and clear manner to patients and their families/carers and all staff involved in the patient's care, to facilitate shared decision-making, timely information transfer, and hence ensuring quality patient care. This includes escalating issues when required, and respecting confidentiality and privacy.
6. Prepare and oversee accurate documentation in relation to patient care, maintaining confidentiality and privacy, to ensure timely and efficient communication of patient information, and to ensure patient records are effective and accurate for current and future use.
7. Teach other clinical staff, to ensure an optimal learning environment, promote growth and development of others. Teaching may include assisting with formal education sessions, providing learning experiences on the job, and giving constructive feedback and informal instruction.
8. Supervise other clinical staff, to enable them to develop the competence and knowledge required for responsible practice, to ensure quality patient care and treatment, promote team building and a supportive environment, enhance the performance of those being supervised, and monitor their welfare.
9. Contribute to research projects to contribute to scholarly knowledge that leads to better patient outcomes and to develop skills and understanding of quality research.
10. Participate in quality assurance activities to ensure that appropriate standards are maintained, gaps in meeting safety and quality standards are identified and raised, and to contribute to the continual improvement of self, colleagues, the department and the service provided by the hospital.
11. Actively monitor and manage own safety and wellbeing, seeking assistance when needed.

POSITION DESCRIPTION

Resident Medical Officer

Northern Sydney
Local Health District

12. Create a personal training or development plan, participate in available educational experiences, and actively seek to learn and obtain feedback in order to maintain lifelong learning and continuing professional development, to understand your own skills, knowledge and capability; and therefore to experience professional growth, exercise judgement and know when to seek assistance.

KEY CHALLENGES

- Balancing professional development and hospital mandated training and education requirements with the delivery of high level medical care and services in a challenging, demanding and varying environment.
- Participating in difficult and critical conversations with colleagues, patients, families, clients and carers.
- Maintaining the efficient utilisation and allocation of physical, human and financial resources in line with facility and district performance benchmarks, budgets and financial targets.

KEY RELATIONSHIPS

Who	Why
Patients/Consumers/Families/carers/guardians accompanying a patient	To communicate information regarding hospitalisation, treatment, and progress in a sensitive, timely, and clear nature as essential for optimal patient care and experience
Consultants providing clinical supervision Inpatient (ward) teams, including other clinical staff/streams/divisions across medical, nursing and allied health	To enable positive working relationships whilst under direct supervision to facilitate professional development. To participate in discussion and decisions, escalate issues, propose solutions, receive guidance, and provide regular updates regarding patients and their management. To enable supportive working connections whilst working in a challenging and complex environment, with the aim of upholding personal health and wellbeing.
Community based health professionals and services, including General Practitioners and emergency services such as Police and Ambulance	To maintain continuity of high level health care in the transition to home and local based care. To provide the patient with links to non-hospital based clinicians and emergency services and assistance with identifying sources of information to achieve health outcomes. To promote best clinical practice through collaborative efforts between primary care providers and hospital providers.

OTHER REQUIREMENTS

Model the NSW Health CORE Values of Collaboration, Openness, Respect and Empowerment.

- Participate in a 24/7 roster and may be rostered to day, evening or night shifts across a seven day roster.
- Move between services and geographical locations to deliver patient care
- Participate in ward rounds and clinical handover, to transfer information, accountability and responsibility for a patient or group of patients, following the ISBAR protocol, National Australian Standards.
- Complete mandatory training as required by the hospital, local health district or specialty network, and NSW Health
- Attend all applicable organization-wide, hospital, department and role orientation sessions
- Abide by all conditions/provisions of employment as outlined in the relevant Award

POSITION DESCRIPTION

Resident Medical Officer

- Conduct all required responsibilities and tasks of the role in a manner that is consistent with legislation, local and state-wide delegations, procedures, policies and manuals, which include but are not limited to the following areas:
 - NSW Health Code of Conduct
 - Performance management and development
 - Work, health and safety
 - Records management
 - Confidentiality and privacy
- All staff are expected to take reasonable care that their acts and omissions do not adversely affect the health and safety of others, that they comply with any reasonable instruction that is given to them and with any policies/procedures relating to health or safety in the workplace, as well as notifying any hazards/risks or incidents to their managers.
- Act as role model and promote a culture and supporting practices that reflect the organisational values through demonstrated behaviours and interactions with patients/clients/employees
- Comply with supervision requirements as set out by the Australian Health Practitioner Regulation Agency
