PRIMARY PURPOSE

This position is primarily designed to benefit junior doctors who wish to pursue a career in surgery, focusing on General Surgery.

The position will provide effective surgical services to patients under supervision at Campbelltown Hospital in complex clinical environments whilst facilitating trainee's preparation for a career in surgery.

This unaccredited trainee position also offers trainees a 6 month rotation to Alice Springs Hospital.

There will be ample opportunity for theatre exposure.

Responsibilities include:

- Co-ordinating admission, management and discharge planning of patients with all members of the team.
- Ensuring admission and management plans are documented in the relevant medical records.
- Involvement in day-to-day assessment and management of patients including effective clinical handover.
- Arranging consultations.
- Involvement in discharge planning, liaising with all members of the team, local medical officers and community services.
- Involvement in decision-making in consultation with senior members of the team.
- Active participation in educational and career development opportunities offered including attendance at teaching sessions.
- Full participation in after hours on call as required.

RESPIRATOR USE

NSW Health workers may be required to use a respirator, as part of their appointment with NSW Health. Where a respirator is required for use, workers will be instructed in their safe use; including donning, doffing and fit checking. Staff may be required to complete fit testing to selected respirator/s to assess their facial fit/seal.

At all times when a health worker is required to use a respirator, the health worker must not have any facial hair present. Processes are in place to support workers that need to keep facial hair due to religious observance
