

POSITION DESCRIPTION

Trainee

Our CORE values
Collaboration Openness Respect Empowerment

Organisation	NSW Health
Local Health District / Agency	Northern NSW Local Health District
Position Classification	JMO Trainee
State Award	Public Hospital Medical Officers (State) Award
Category	Medical Officers Intensive Care Medicine
Vaccination Category	Category A
Website	www.nnswlhd.health.nsw.gov.au/

PRIMARY PURPOSE

The primary purpose of the position is to manage patients requiring intensive care, those at risk of clinical deterioration requiring intensive care, plus pre- and post-intensive care evaluation, as directed and overseen by supervising consultants; while developing expertise in medical practice, in a complex clinical environment.

Critically ill patients include patients with life-threatening single and multiple organ system failure, those at risk of clinical deterioration as well as those requiring resuscitation and/or management in an intensive care unit. Trainees in unaccredited positions in the Intensive Care Department work under supervision, assisting to manage, diagnose and treat the disturbances associated with severe medical, surgical, obstetric and paediatric illness and the conditions that cause them. This may include management of deteriorating and seriously ill patients outside the intensive care unit as well as the intra-hospital transport of critically ill patients.

This position is appropriate for foundational ICU training, or for those rotating from other specialties e.g. emergency medicine, anaesthetics.

RESPIRATOR USE

NSW Health workers may be required to use a respirator, as part of their appointment with NSW Health. Where a respirator is required for use, workers will be instructed in their safe use; including donning, doffing and fit checking. Staff may be required to complete fit testing to selected respirator/s to assess their facial fit/seal.

At all times when a health worker is required to use a respirator, the health worker must not have any facial hair present. Processes are in place to support workers that need to keep facial hair due to religious observance requirements and/ or health conditions.

ESSENTIAL CRITERIA

- MBBS or equivalent, currently registered or eligible for registration with the Medical Board of Australia in an appropriate registration category.
- International Medical Graduates see advice here
<https://www.health.nsw.gov.au/careers/Pages/medical.aspx>

POSITION DESCRIPTION

Trainee

- Completion of at least two postgraduate years of medical practice (PGY3+ at commencement of position).
- Accepted into Fellowship training or has applied for Fellowship training with the College of Intensive Care Medicine (CICM) or undertaking Fellowship training in another relevant critical care discipline.
- This position is subject to an appropriate supervision level which can be supported by the health agency. If the incumbent's registration conditions include supervision requirements, the level of supervision must be able to be supported by the health agency for this role.
- Possess a valid, unencumbered, Driver's Licence for use in NSW/Australia, as staff may be required to travel between sites as part of their employment requirements
- Valid Working with Children Check
- Cleared National Police Check
- Aged Care Check for Australian Government funded positions
- To be employed by NSW Health you are required to provide evidence of vaccination to comply with the NSW Health Occupational Assessment, Screening & Vaccination against Specified Infectious Diseases Policy, this includes any amendments made from time to time.

KEY ACCOUNTABILITIES

- Under supervision, achieve the best possible outcomes for patients by immediate management of patients and assisting with day to day clinical management of patients in the Intensive Care Unit.
- Perform common invasive and non-invasive diagnostic techniques and treatment modalities designed to support vital organs, under supervision or as approved.
- Implement and initiate changes to treatment plans as directed, organise referrals, consultations, and diagnostic investigations.
- Communicate patient-relevant information in a timely and clear manner to patients and their families/carers and all staff involved in the patient's care, to facilitate teamwork, timely information transfer, and hence ensuring quality patient care. This includes establishing therapeutic relationships with patients/families/carers, sharing health care information and treatment plans, escalating issues when required, and respecting confidentiality and privacy.
- Prepare accurate documentation in relation to patient care, whilst maintaining confidentiality and privacy, to ensure timely and efficient communication of patient information, and to ensure patient records are effective and accurate for current and future use. This includes entry into medical records, referrals, discharge summaries, reports for coroners, death certificates and any other documentation in relation to patient care and management.
- Teach other clinical staff, to ensure an optimal learning environment, promote growth and development of others, and to develop skills in teaching. Teaching may include assisting with formal education sessions, providing learning experiences on the job, case presentations, giving constructive feedback and informal instruction, undertaking formal/informal assessments.
- Supervise other clinical staff, to enable them to develop the competence and knowledge required for responsible practice, to ensure quality patient care and treatment, promote team building and a supportive environment, enhance their performance and monitor their welfare. Supervision includes checking work is conducted to standards, providing constructive feedback and guidance, contributing to professional development, assisting to solve problems.
- Contribute to research projects to contribute to scholarly knowledge that leads to better patient outcomes and to develop skills and understanding of quality research.
- Participate in the Department's quality assurance activities to ensure safety (freedom from harm), effectiveness (use of evidence based therapy), efficiency (eliminating waste), patient centredness (taking account of the patient's real needs), timeliness (care provided when needed) and equitability (care independent of wealth, race, religion or gender).
- Actively monitor and manage own mental and physical wellbeing, reporting concerns and seeking assistance when needed.

POSITION DESCRIPTION

Trainee

- Create a personal training or development plan, participate in available educational experiences, and actively seek to learn and obtain feedback in order to develop and understand your own skills, knowledge and capability; and therefore to exercise judgement and know when to seek assistance.

KEY CHALLENGES

- Balancing training and education requirements to develop clinical/procedural expertise and skillset with the delivery of high level medical care and services in a challenging, demanding and varying environment.
- Maintain composure during emergency situations and devising appropriate management plans, with consultation, in a short time frame to effectively manage emergency situations
- Use effective, sensitive and empathic communication skills, including the ability to adapt messages to suit a wider range of clinical and non-clinical professional settings, as well as recognising challenging and conflicting communication and working with senior clinicians on management strategies to promote positive outcomes.

POSITION DESCRIPTION

Trainee
